## ABOUT ME

Computer Engineering graduate (University of Granada) with a background in software development and a growing focus on cybersecurity.

## WORK EXPERIENCE

**HerionTech** *June 2026 - September 2026*

- Designed and delivered an AI receptionist in Python running in Docker on Hetzner to automate appointment booking.
- Integrated TTS/STT (ElevenLabs), Gemini API, VoiceCX PBX and Google Workspace so the system could handle ~2,000 client calls per month.
- Developed a full-stack restaurant web app (React 18/Vite, Redux, PWA/IndexedDB, Express, Sequelize, PostgreSQL, Azure) with ordering, staff and billing management.

**Granada Chamber of Commerce (Internship)** *March 2025 - June 2025*

- Developed and structured the frontend of 2 company websites using WordPress.
- Created and customized themes and page layouts to match business requirements.
- Collaborated with staff to refine content and improve site usability.

**Bovio Logistics** *Summer 2023*

- Worked as an Amazon delivery driver in Madrid.

## EDUCATION

**Computer Engineering Degree** *2020 - 2026*

*Almería University | 2020-2021*

*Granada University | 2021 - 2026*

**Higher Technical Degree in Multi-Platform Application Development** *2018-2020*

*CES Cristo Rey*

**High School Diploma (Bachillerato)** *2016-2018*

*CES Cristo Rey*

## COURSES

**Networking Basics** *2025*

*CISCO Academy*

**Introduction to Cibersecurity** *2025*

*CISCO Academy*

**Advanced Cybersecurity in Operational Technology Environments** *2025*

*Aprendea*

**Various Introductory and Advanced Cybersecurity Courses** *2024 - Present*

*Hack The Box*

**Keyboard Building Course** *2021*

*Mastermind*

**Business Development Course for Young Adults** *2018*
